

AERTS ET AL. (2014)

Decoding tumour phenotype by noninvasive imaging

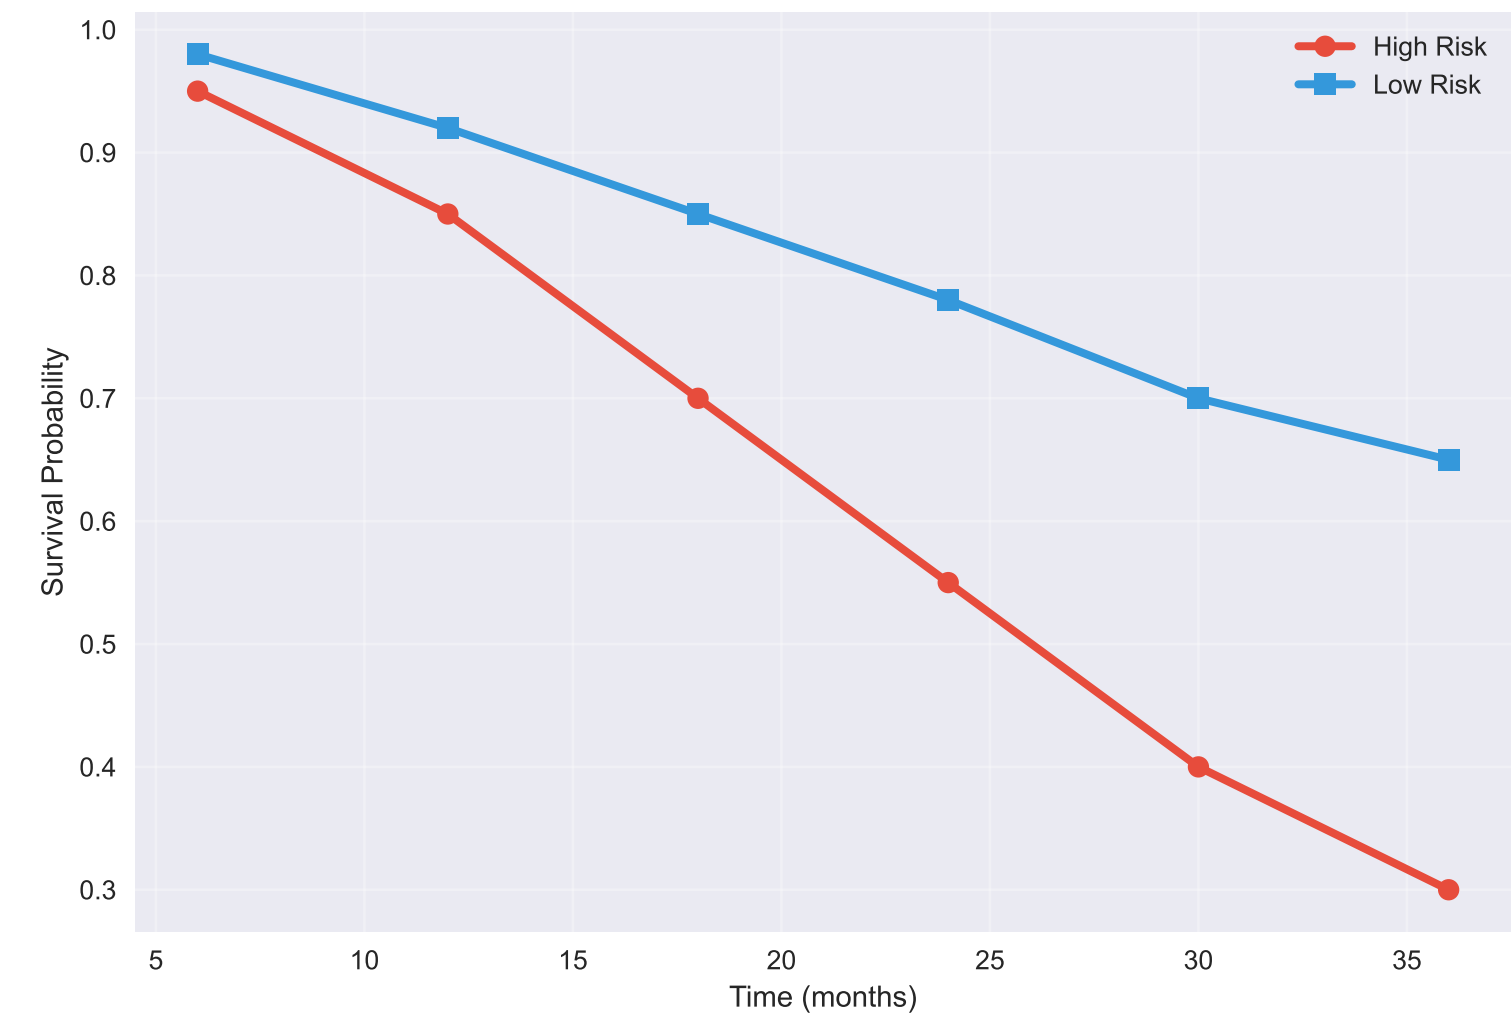

Breakthrough Impact Over Time

Study Scale and Scope

Survival Prediction Performance

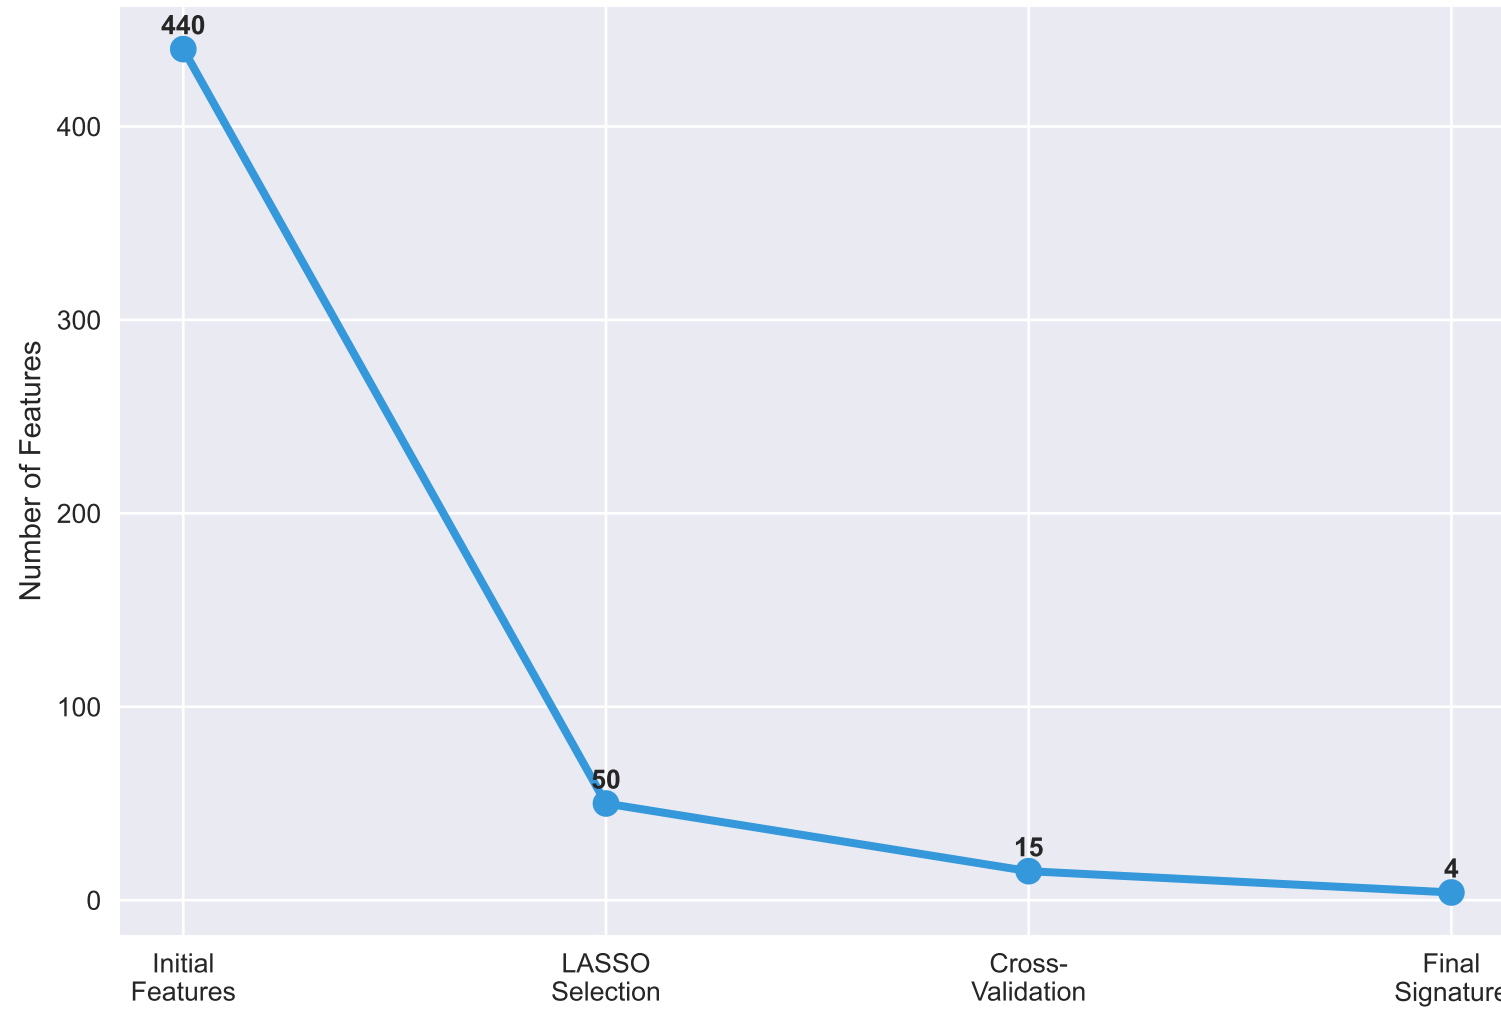

Molecular Marker Prediction

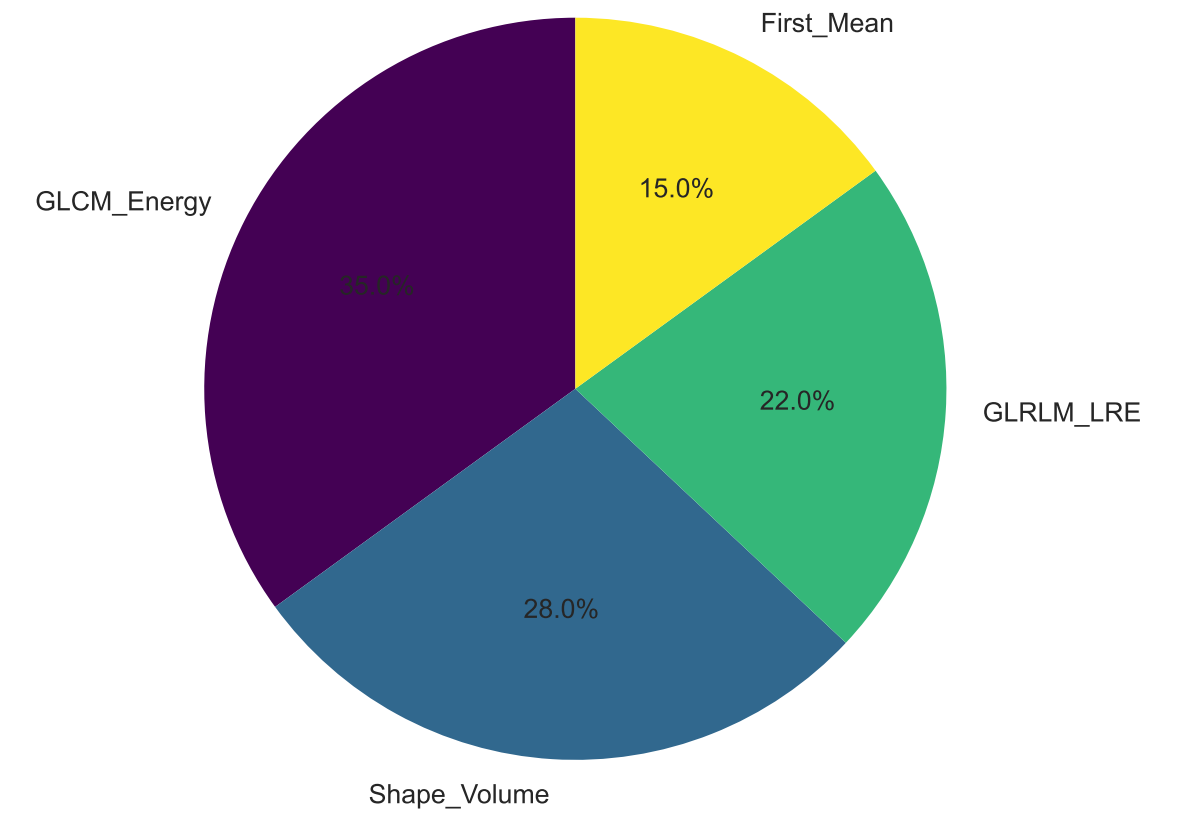

METHODOLOGY & SIGNATURE DEVELOPMENT

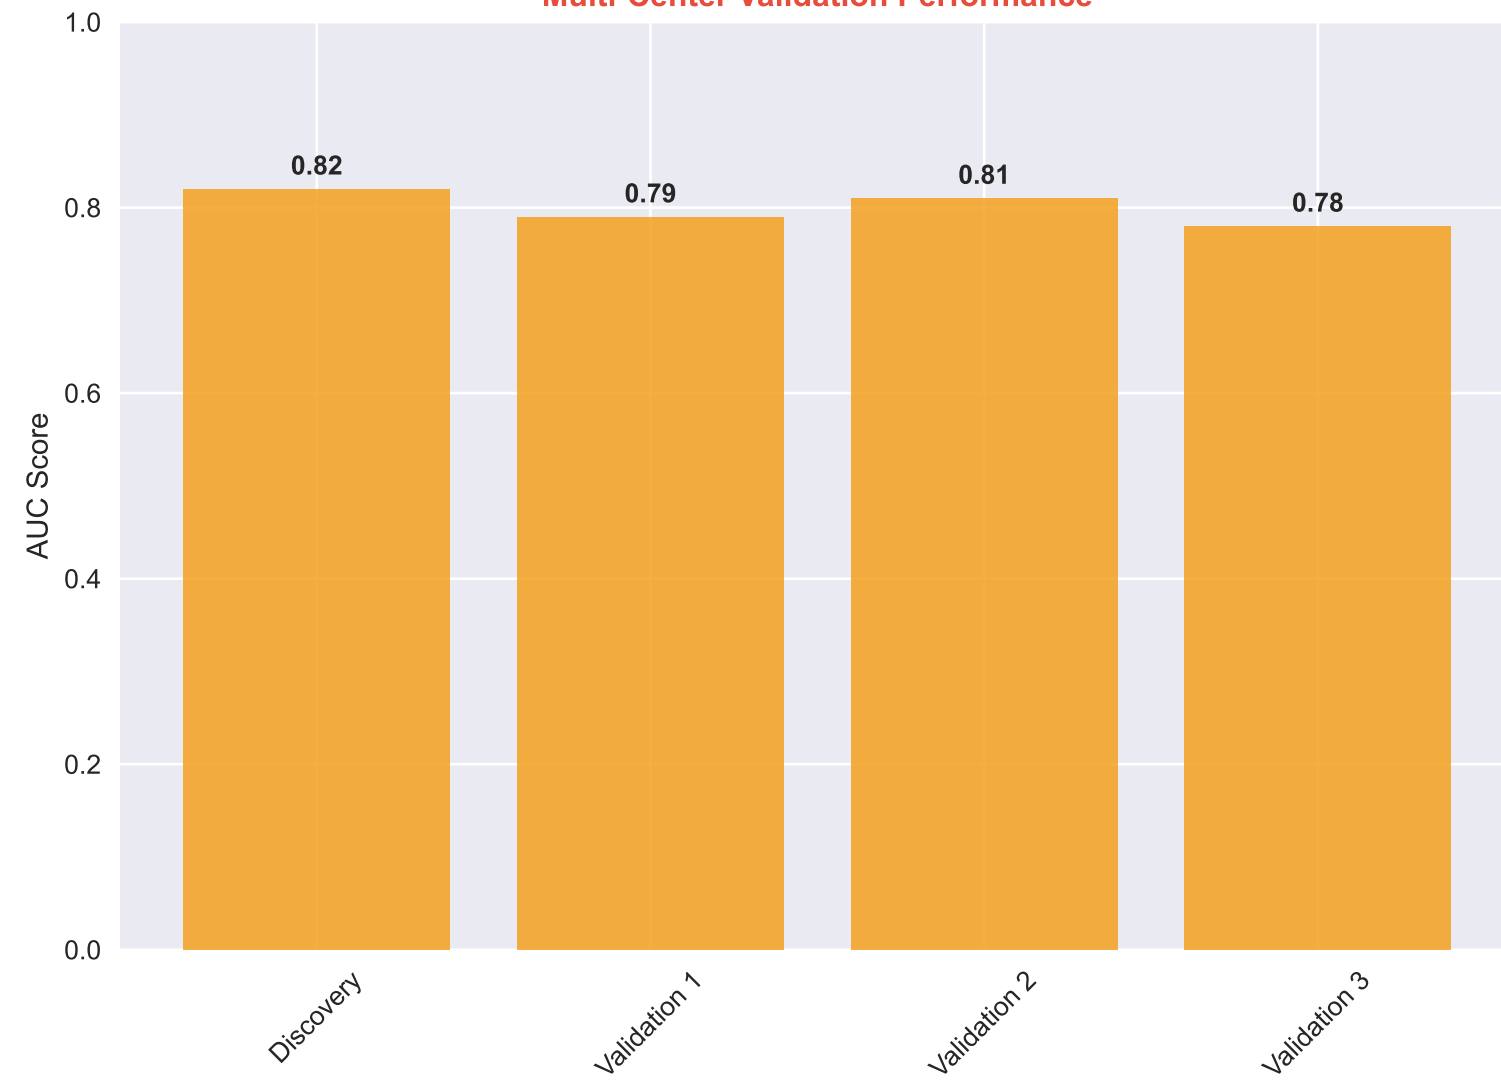

Feature Selection Process

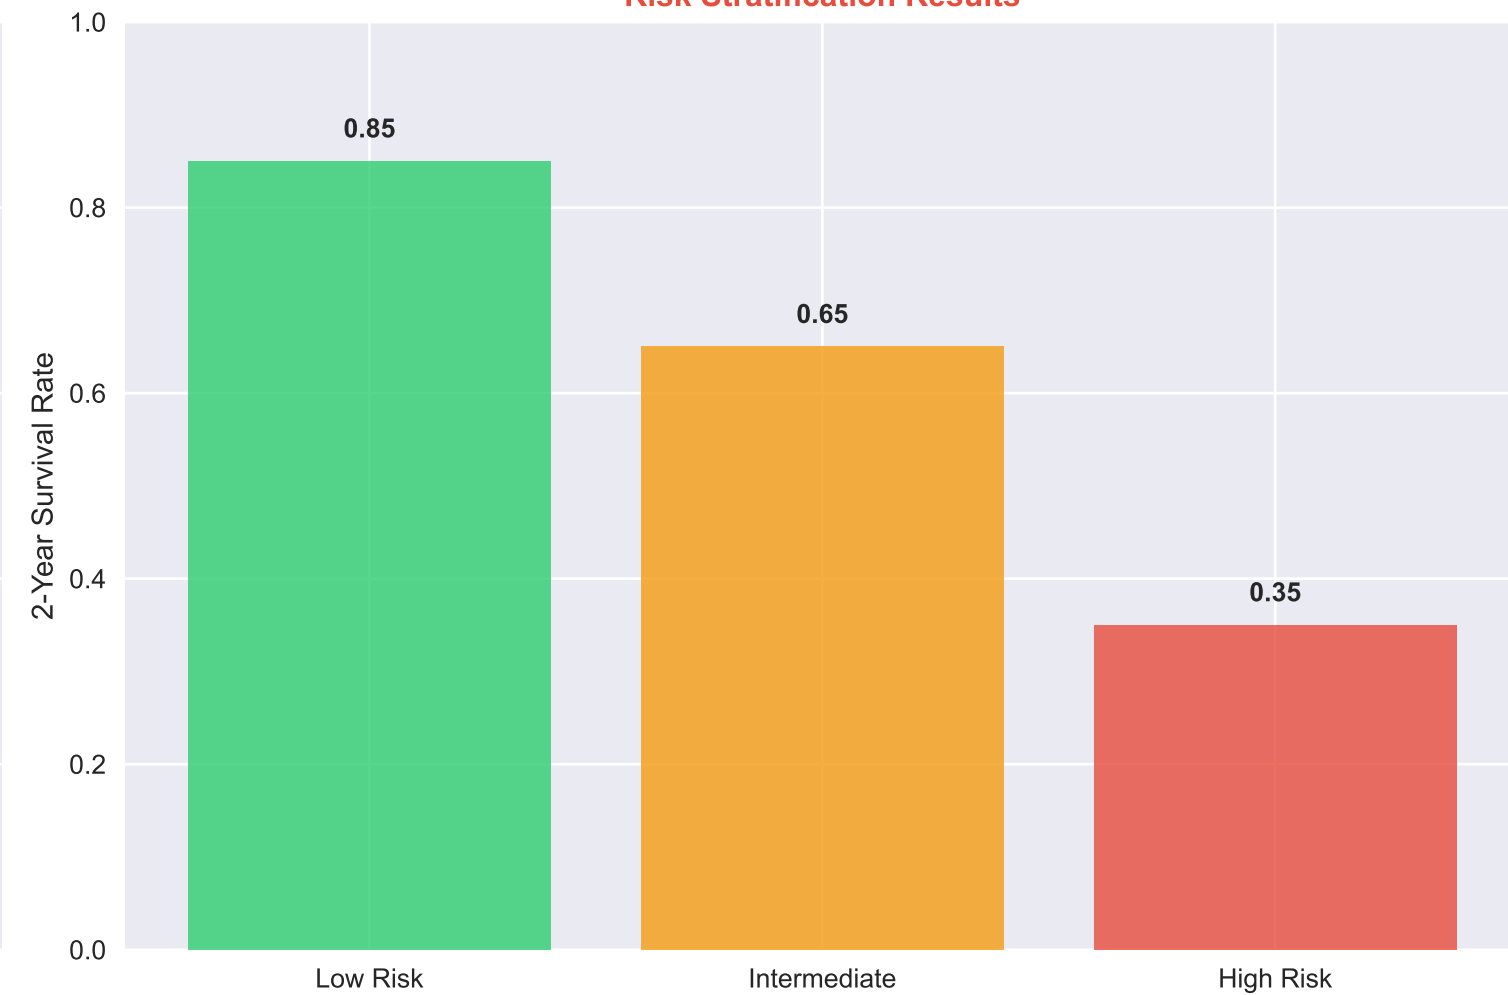

4-Feature Signature Composition

Multi-Center Validation Performance

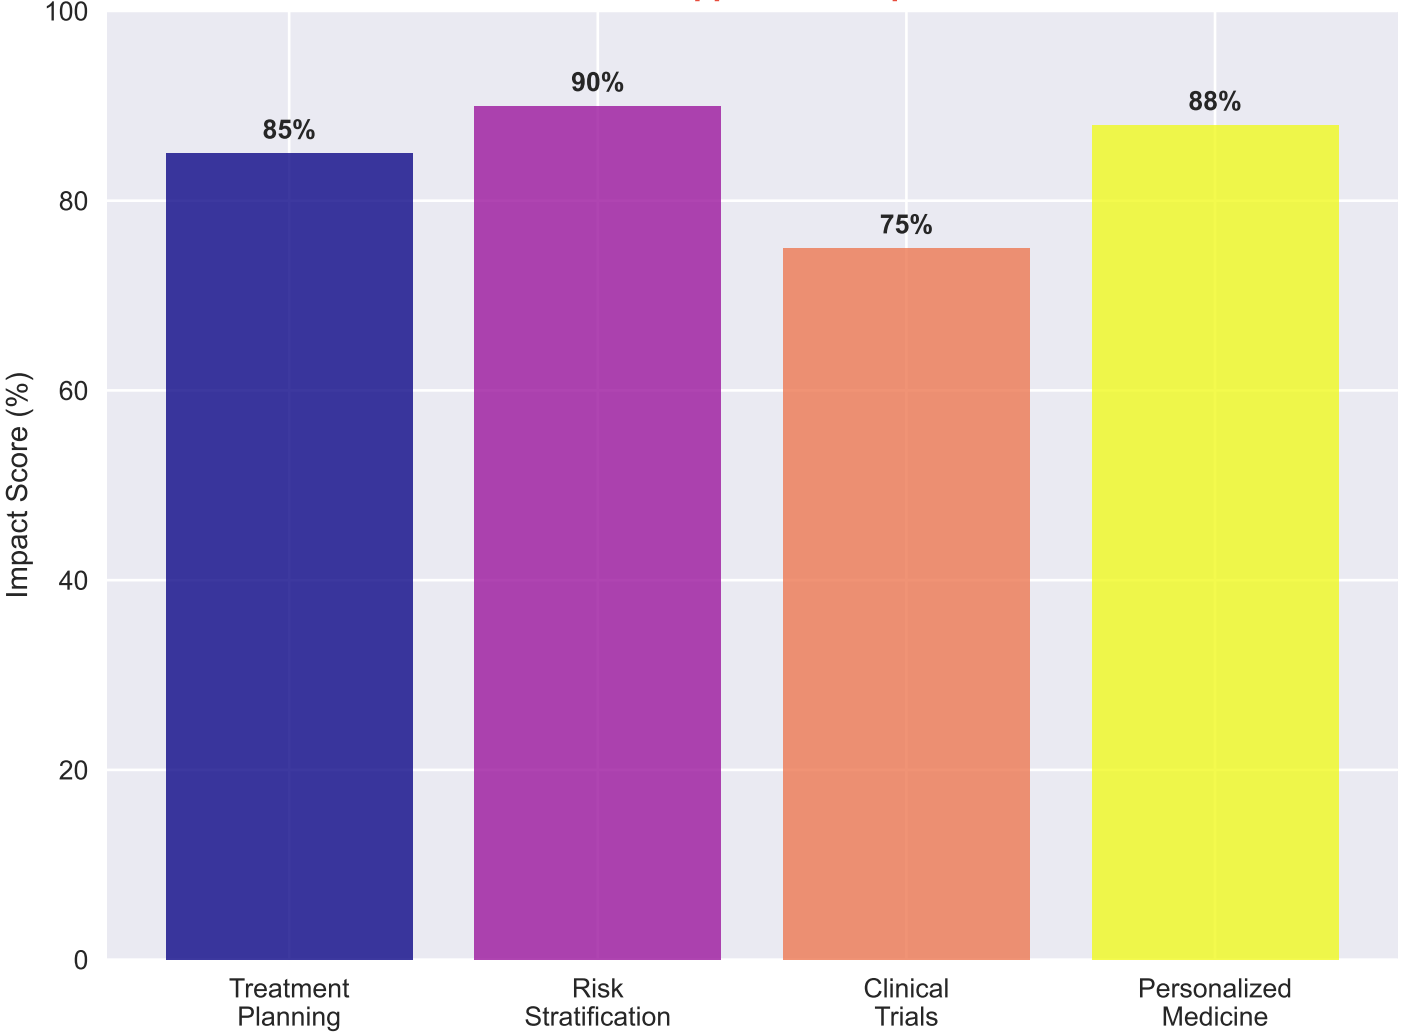

Risk Stratification Results

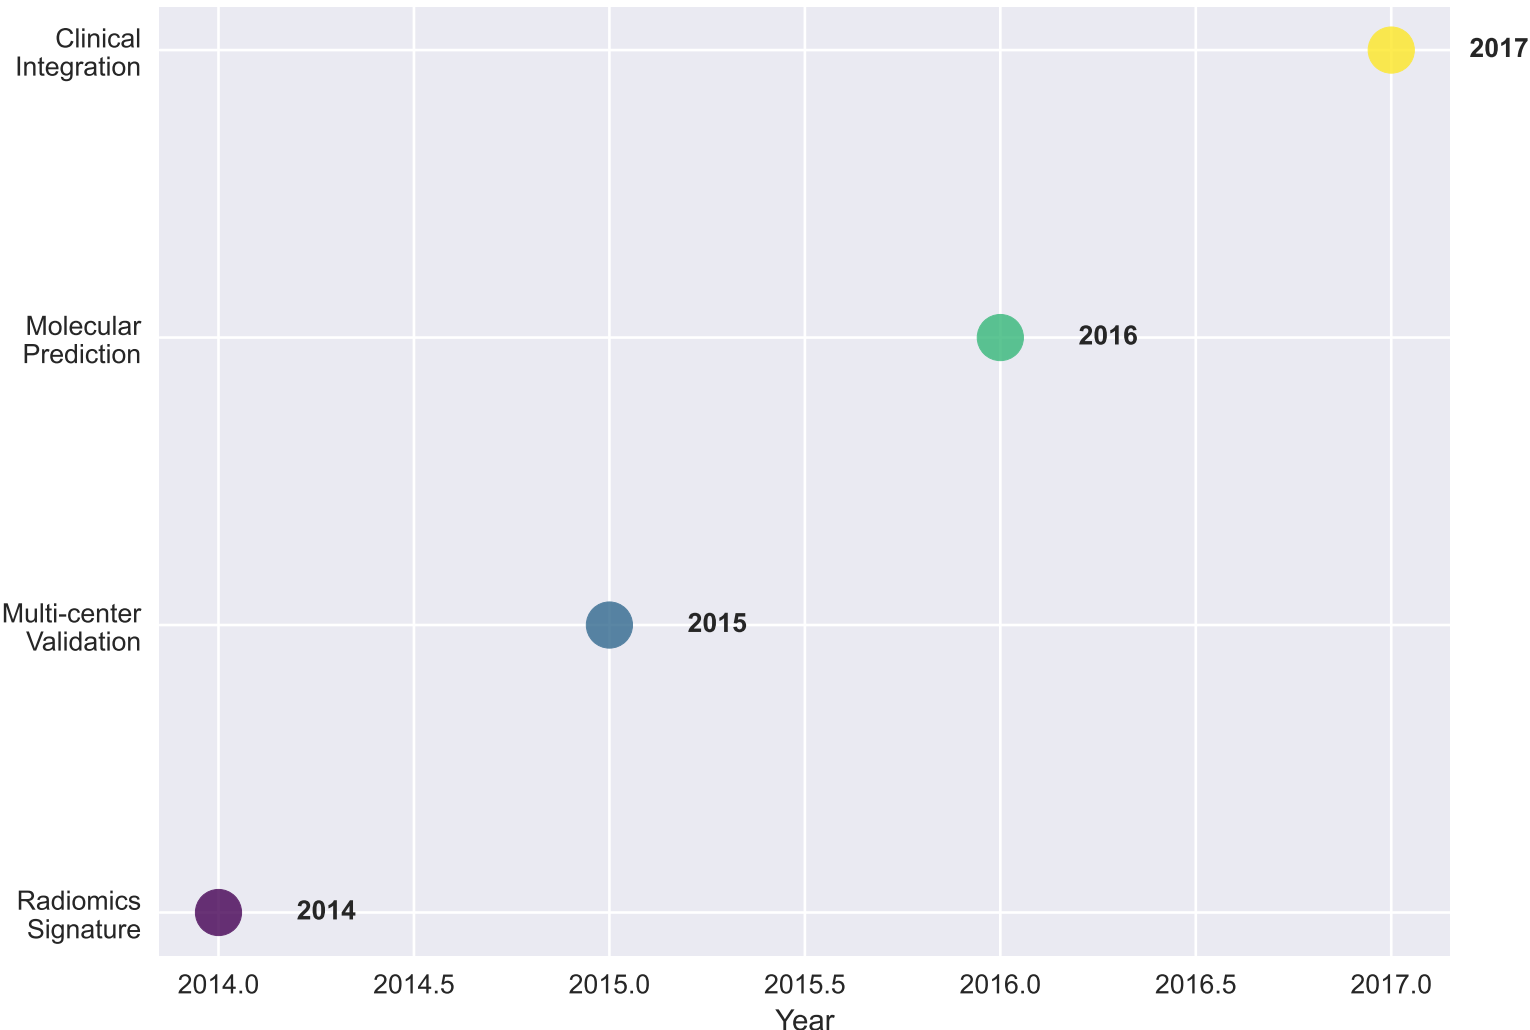

CLINICAL IMPACT & INNOVATION

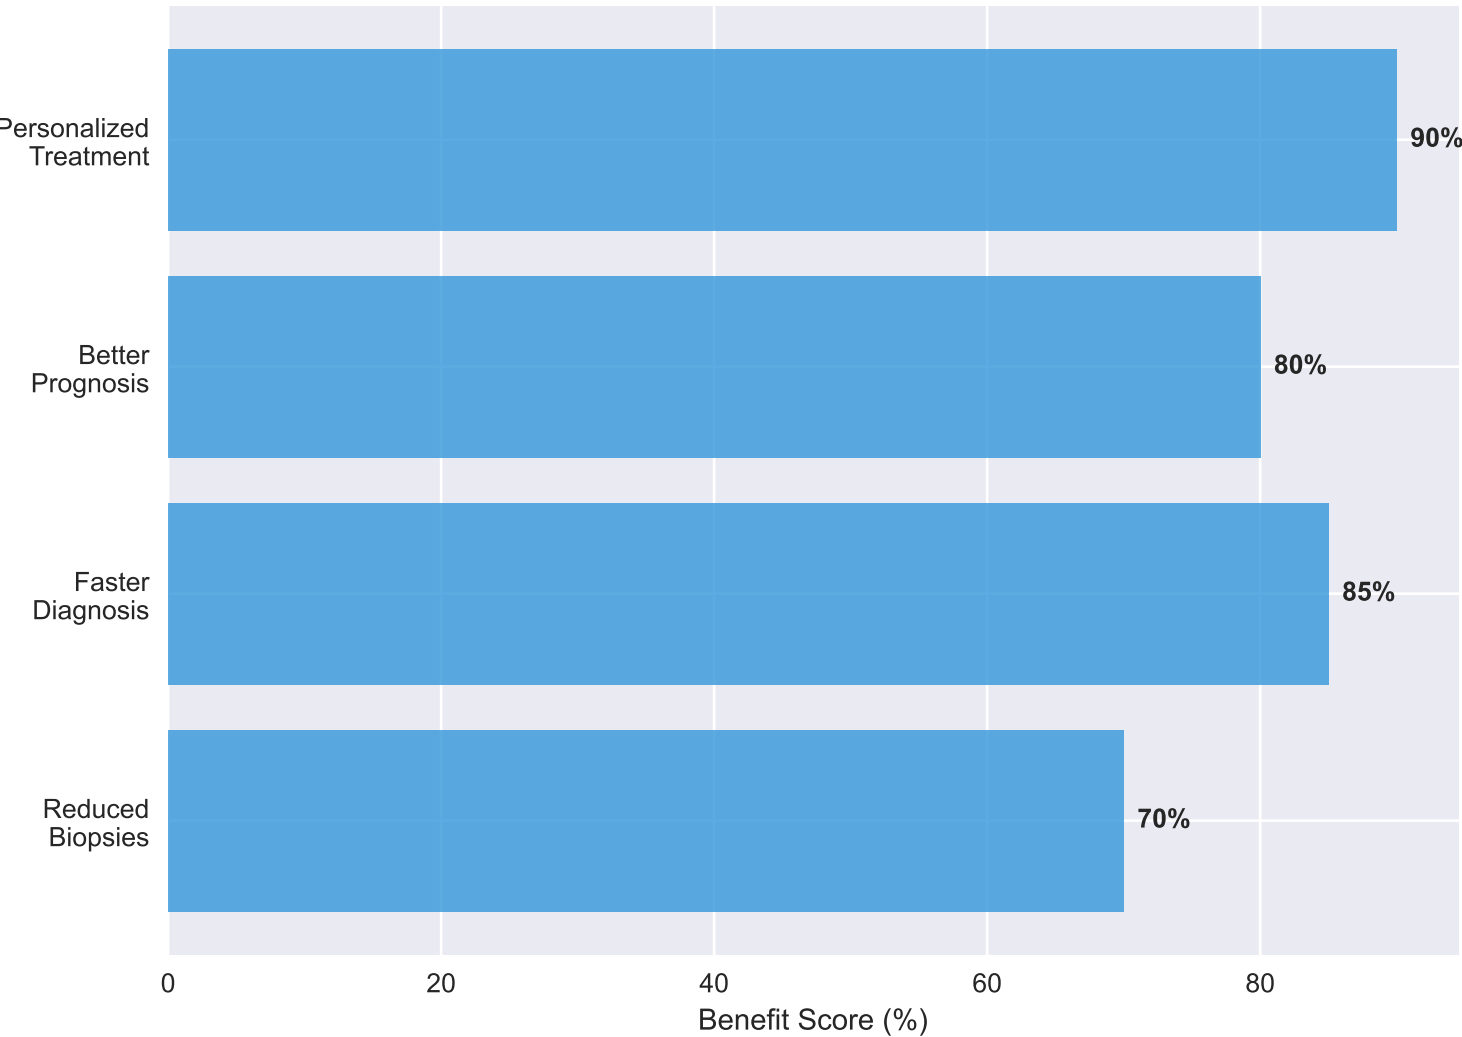

Clinical Application Impact

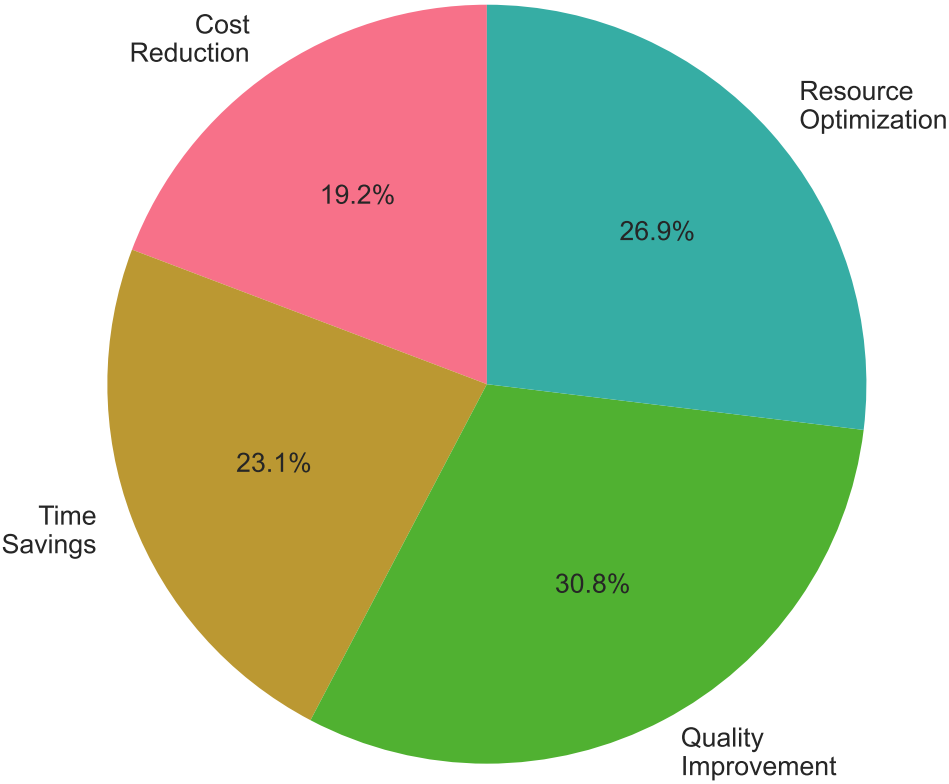

Innovation Timeline

Patient Benefit Analysis

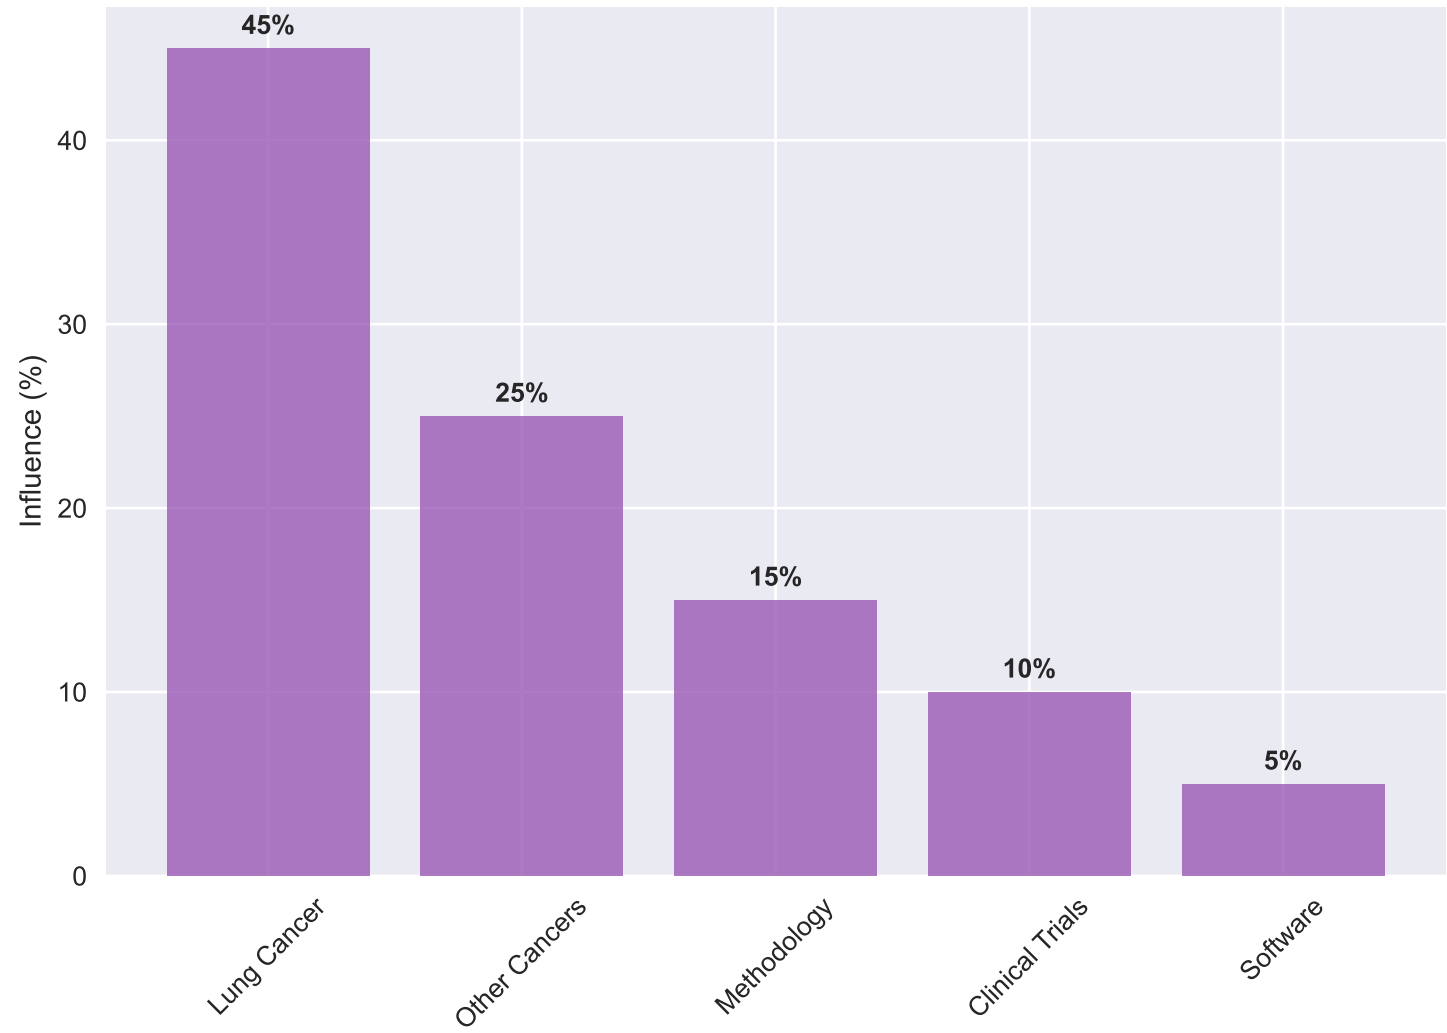

Economic Impact Distribution

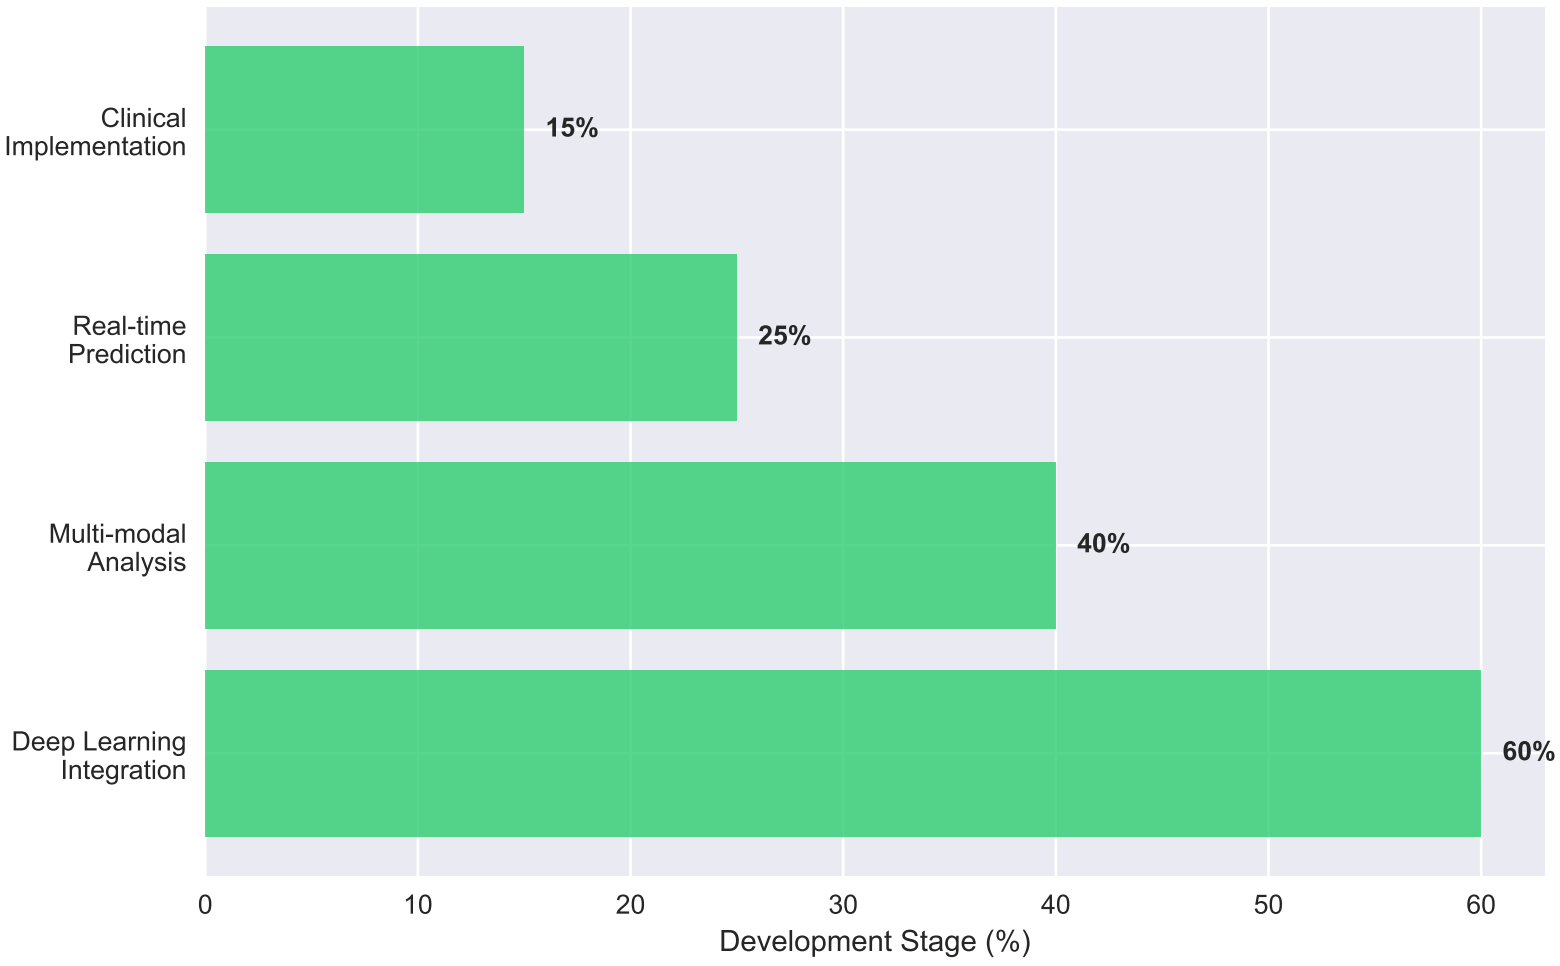

LEGACY & FUTURE DIRECTIONS

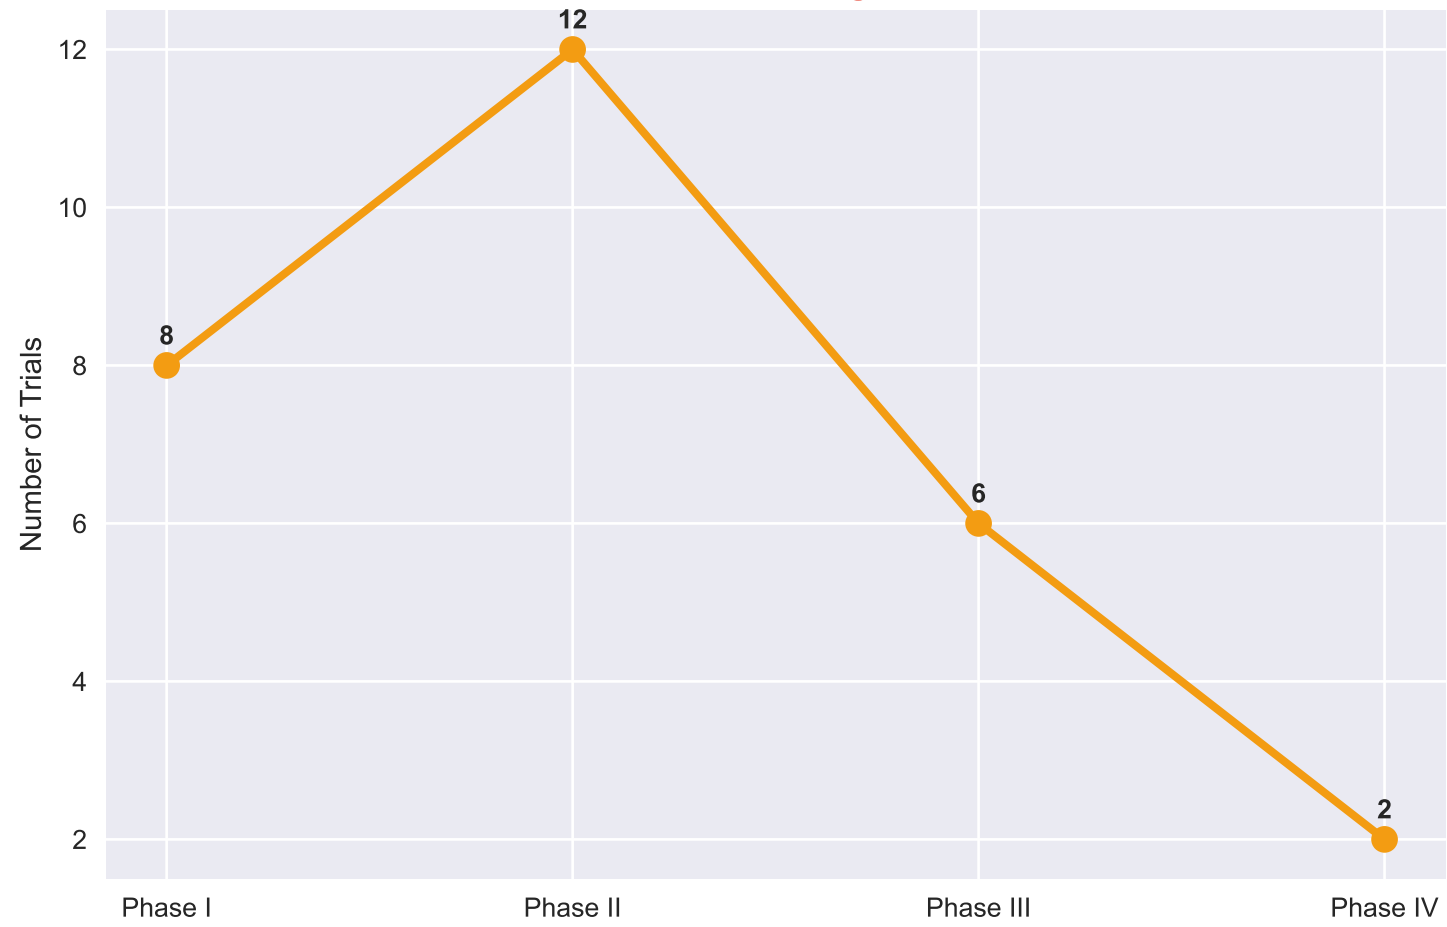

Citation Influence by Area

Future Development Progress

Clinical Trial Integration

Regulatory Pathway Progress
